

Web Site Tools That Drive Referrals to Your Door – *Options for Home Health-care Providers*

When you join TLC's nationwide network of care providers your company is visible to thousands of families and hospital case managers searching for specific care services in your area. TLC maintains the only comprehensive database of more than 68,000 home health, home care, hospice agencies and licensed post-acute care providers in the nation.

Maximize Your Exposure with Web Site Development

Home health, home care and hospice agencies that have a Web site in the TLC system receive six times more referrals than those that don't. To help increase your visibility and deliver up to six times more qualified referrals directly to you, we offer affordable Web site advertising, development and hosting options.
